

# Welcome

This website gathers information on projects from Xavier de Pedro which might serve for social gardening, as seeds that might grow (beyond the initial action of the gardener) for changing society into (hopefully) something better 😊

Why something about "seeds", "gardening" and such, instead of the traditional way of speaking (and acting) with "Building a better society" etc?

Because I learned that a better world needs the ability to:

- adapt to the changing environment in which it resides
- grow when needed, and change shape or reproduce when the maximum size is reached for that system.
- die at some point while passing the information to younger organisms that will stay there for longer.

### Content features

Feature name and link	Description	Dev (Bug reports & Feature requests)	Setup and admin UI	UI and user Stability	Feature-set and power	Admin icon	
<a href="#">Articles</a>	Articles can be used for date-specific news and announcements. You can configure articles to automatically publish and expire at specific times or to require that submissions be approved before becoming "live." In addition to categories and tags, articles include their own unique classification system of Topics and Types.		B	A	A		
<a href="#">Forums</a>	Forums are online discussions organized by topic (or thread). Tiki forums feature threaded or flat views, file attachments, moderation and queuing, monitoring (subscription) of particular forums or topics, and full usage of wiki syntax.		B	C	B	A	
<a href="#">File Gallery</a>	Computer files, videos or software for downloading. With check-in & check-out (lock)		A	B	A	A	
<a href="#">Calendar</a>	Events calendar with public, private and group channels		B	B	B	A	
<a href="#">Image Gallery</a>	Collections of graphic images for viewing or downloading (photo album) Note: The Image gallery was deprecated in Tiki 4 in favor of the File Gallery.		B	C	B	A	

### Random "biological seed":

Plants & living organisms can do it; buildings can not. Therefore, **We need to "Plant a better world", and not just aim to "build it"**.

Buildings last a few thousand years, at the most. Living beings last (community-wise) one or two orders of magnitude more, at least. And Life on Earth has lasted so far at least 3500 million years:

why not learning from Living beings that create much more sustainable systems?
